# STAMPI IN PLASTICA PER SEMIFREDDO REUSABLE SEMIFREDDO MOULDS

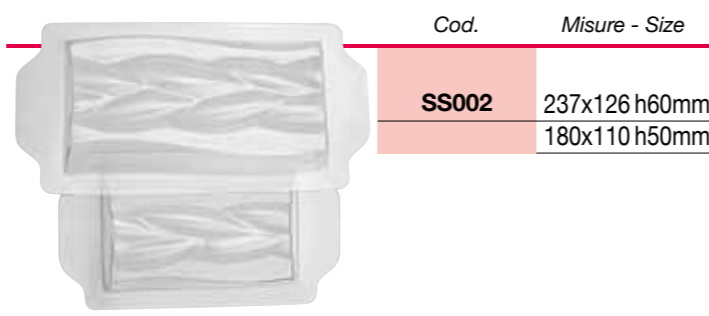

Martellato offre un'ampia gamma di stampi semifreddo di varie dimensioni e dalle più svariate forme. Modelli dal design moderno che garantiscono un raffinato risultato e conferiscono al dessert un tocco di assoluta originalità. Lo stampo Martellato è realizzato in materiale plastico resistente ma allo stesso tempo sufficientemente flessibile per permettere una facile estrazione. Per garantire un buon risultato Martellato consiglia di scuotere lo stampo, una volta riempito, per compattarne il contenuto ed eliminare la possibile formazione di bolle d'aria. Congelare il semifreddo, in abbattitore o freezer, fino a -20°C al cuore. Conf. 2 pezzi, stesso modello, formato piccolo e grande.

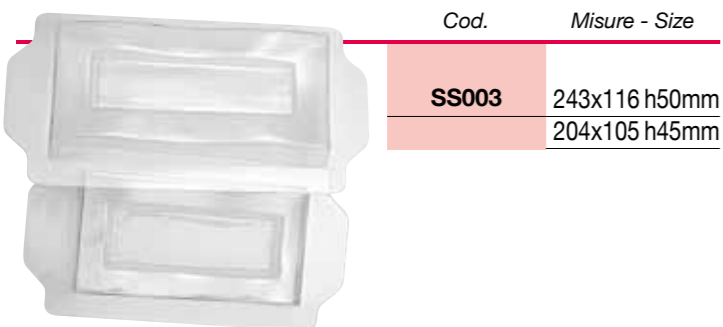

Martellato offers a wide range of soft ice-cream moulds of various sizes and shapes. Modern design models that provide a stylish result and give the dessert a touch of absolute originality. Martellato moulds are made of durable plastic, but at the same time, sufficiently flexible to allow an easy extraction. To ensure a good result Martellato recommends to shake the mould, once filled, to tamp down and eliminate the possible formation of air bubbles. Freeze the semifreddo in the blast chiller or freezer, reaching -20°C in the heart of the cake. Pack 2 pcs, big and small size of the same shape.

**CONSIGLI PER L'ESTRAZIONE:**  
Lasciare per qualche minuto il semifreddo a temperatura ambiente.  
Per facilitare la sformatura immergere lo stampo in acqua non calda o passare un panno facendo attenzione a non riscaldare troppo il semifreddo.  
Dopo l'estrazione decorare con la linea coloranti spray Velvet o Chablouage

**SUGGESTIONS FOR DEMOULDING:**  
Leave the semifreddo at room temperature for a few minutes.  
For an easy demoulding, put the mould in a basin with water or use a soft cloth, paying attention not to warm the semifreddo too much.  
Decorate the semifreddo with the Velvet or Chablouage spray colours.

## TORTIERE IN SILICONE SILICONE CAKE MOULDS

Per dolci, crostate, torte salate, pizze, torte, budini, brioches, sformati, sorbetti, gelati, mousse di frutta o verdure... Si puliscono semplicemente sotto un getto di acqua calda, con l'aiuto di una spugna o in lavastoviglie.  
Per una manutenzione ottimale spolverizzare lo stampo con farina, cacao o zucchero a velo prima dell'uso.  
For cakes, jam tarts, savoury flans, pizzas, puddings, buns, sorbets, fruit or vegetable mousses... They can be easily cleaned with a sponge and hot water or in the dishwasher.  
We advise dusting the mould with flour, cocoa powder or icing sugar before using it.

**Non usare l'anello in microonde.  
The ring cannot be used in the microwave.**

Gli stampi sono forniti di un anello brevettato, con le stesse caratteristiche dello stampo, che rende il suo bordo rigido. Assicurarsi che l'anello sia ben fissato allo stampo prima di utilizzarlo e toglierlo prima dell'operazione di sfornatura. In dotazione con tutti gli UNIFLEX. Può andare in forno e/o in abbattitore. Identifica i siliconi Martellato, detentriche del brevetto.

The moulds are provided with a patented ring, with the same characteristics of the moulds, to make the edge stiff. Make sure that the ring is well fixed to the mould before using it and remove it before turning out. It is enclosed in every UNIFLEX. It can be baked and/or frozen. It distinguishes Martellato silicone moulds, the holder of the patent.

## MONOPORZIONE IN SILICONE SILICONE MONOPORTIONS MOULDS

Gli stampi in silicone antiaderente SILICONFLEX permettono di superare definitivamente i problemi legati alla preparazione dei prodotti da pasticceria e ristorazione. SILICONFLEX moulds are made of non-stick silicone. They solve all the problems related to the preparation of pastry and food in general.
